

There have been numerous burglaries of habitations in the Cedar Park area in which the same mode of operation has been used. The suspects are entering through the front door by kicking it in or breaking the glass. We believe that prior to breaking in; the suspects are watching the residences and waiting until the homeowners leave. The burglaries have also occurred at apartment complexes. The suspects have been described by witnesses as white or Hispanic males between 20 – 45 years of age. The dates of the burglaries range from late December 2009 to mid March 2010. They are mostly occurring during daylight hours. The suspects are taking electronics, jewelry and firearms.

Witnesses have described the suspect vehicles as a red Ford Explorer or Expedition with a partial license plate of LMT and chrome rims. Witnesses have also reported seeing a gold color sedan and a black Ford F250 or F350 with a black toolbox. We believe the suspects are using multiple vehicles and changing out vehicles as they commit these burglaries.
